

Muheim Elementary

Ecole Muheim Elementary School

2020/2021

Welcome!

Welcome to the website for Muheim Memorial Elementary School. Muheim is a dual track school, with both French Immersion and English classes. We are honored to live and learn on unceded Gidimt'en territory, the traditional home of the Witsuwit'en people. We have a staff of over 30 adults and an active PAC, whose job it is to ensure that the community values of the Bulkley Valley and the educational priorities of SD54, are supported and celebrated. We have a proud culture of caring in our school community with a strong focus on building healthy, positive relationships. With a student population of just under 300 students, we are one of the larger elementary schools in the Bulkley Valley. Our school plan focuses on developing our own professional pedagogy and employing progressive assessment practices with an eye towards improving students' engagement. This is aligned with SD 54's goal of improving transition and completion rates across our district.

Under normal circumstances we would happily invite you to drop by and discuss our school in person, but during these difficult COVID times, we are asking parents and visitors to please call ahead to arrange any meetings with staff members. As well, for those with questions regarding procedures and protocols, please call, or visit the SD 54 website where you'll find a variety of COVID resources.

Sincerely,

Craig McAulay

Principal
